

SHELL NIGERIA EXPLORATION AND PRODUCTION COMPANY LTD (SNEPCo)

INVITATION FOR PRE-QUALIFICATION TO TENDER - D01988

ENGINEERING, PROCUREMENT & INSTALLATION OF TOPSIDE FACILITIES FOR BONGA NORTHWEST FIELD DEVELOPMENT PROJECT.

INTRODUCTION

Shell Nigeria Exploration and Production Company (SNEPCo) as Operator of NNPC OPL 212 is seeking qualified contractors for the design, supply and installation of topside facilities on the Bonga FPSO as part of the Bonga Northwest field development, which is located 120 kilometres offshore Nigeria in water depths up to 1200 metres. SNEPCo hereby invites submissions for pre-qualification from reputable and sound companies (herein referred to as "Respondents") having proven experience and expertise in the aforementioned work.

SCOPE OF WORK

The Scope of Work (the "Work") in the topsides contract would include, but not be limited to, engineering, procurement and hook-up/installation of additional Topside Facilities associated with the:

- Extension of existing methanol injection system by fabrication of pump skid.
- Extension of existing corrosion inhibitor injection system by fabrication of pump skid.
- Fabrication of an additional Control Building including Heating Ventilation and Air Conditioning HVAC System.

SNEPCo hereby invite suitable and reputable Nigerian Engineering, Procurement and Construction companies to submit pre-qualification documents for the tender exercise. All prospective companies need to have presence in Nigeria and shall be required to set up project offices in Nigeria.

NIGERIAN CONTENT

All bidders are to fully comply with the Federal Government of Nigerian directives on Nigerian Content targets of 45% and 70% by year end 2006 and 2010 respectively. Bidders to identify in their bids the scope of work that will be accomplished using Nigerian resources (human and material.) Bidders are expected to provide the following information

- Evidence of presence in Nigeria and experience of executing similar project in Nigeria for the past three years.
- Company structure indicating the positions occupied by Nigerians in Top Management.
- Evidence of service centres, maintenance and repair shop in Nigeria.
- Location and address office for procurement coordination activities in Nigeria.
- Detailed Nigerian content development plan.

In line with Federal Government Directives on Nigerian Content Development Policy, the successful contractor must:

- Carry out all Engineering activities in Nigeria.
- Locate all Project Management Teams and Procurement Centres for the project in Nigeria.
- Fabricate all topsides of fixed (onshore and offshore) platforms weighing up to 5,000 Tonnes on the project in Nigeria to maximise the use of local fabrication yards. Piles, anchors, buoys, jackets and similar structures will be fabricated in Nigeria.

Tenderers are kindly requested to give full details of their relevant strategy to comply with these Government Directives. **Non-compliance with Government directives on Nigerian Content requirements constitutes a "fatal flaw".**

PRE-QUALIFICATION REQUIRMENTS

Only those Respondents able to demonstrate and document proven experience, available resources, and readiness to undertake the Work will be considered. The following criteria apply:

- Respondent needs to have recent and relevant experience in the Work, having executed within the last 5 years at least one contract with similar scope of work, under comparable conditions, where respondent was/is responsible for A similar scope of work to that described above.
- Respondent must be willing and able to provide audited accounts.
- Respondents must submit valid and relevant DPR certificates. **Non-compliance with this requirement will constitute a "fatal-flaw".**
- Respondents must submit Certificate of Incorporation with CAC and form CO7. **Non-compliance with this requirement will constitute a "fatal-flaw".**
- Respondents must provide all requested information in the Prequalification Questionnaire.

Respondents should provide the name and full contact information for the officer in their Company who has responsibility for responding to any potential Invitation To Tender, in the event that respondent satisfies the requirements of the Pre-Qualification. Respondents shall also provide a duly authorised and certified Power of Attorney for the said individual, verifying their authority to act on behalf of and to bind the respondent in all matters related to the pre-Qualification.

PRE-QUALIFICATION PACKAGE

Interested parties can obtain the Pre-Qualification Package by applying in writing to **The Secretary of the Tender Board** at the address below. The Pre-Qualification Package is available in electronic copies.

**3rd Floor, Long Wing,
Shell Nigeria Exploration and Production Company
20 Marina, Sterling Towers
Lagos, Nigeria.**

Prior to the submission of the completed Prequalification documents, SNEPCo intend to hold a meeting to brief all interested parties with regards to the proposed Scope of Work associated with this Prequalification exercise. The date of this meeting will be advised when collecting the Pre-qualification package

The closing date for the submission of completed Prequalification documents will be 14.00 hrs. 18th August 2006. Submissions received after this date will be disregarded. In all correspondences, please quote the contract reference and title as shown above.

Only those companies that meet the pre-qualification criteria, which shall be determined at SNEPCO's sole discretion, will be included in the tender bid list.

This advertisement is not an invitation to tender for the above services. There is no commitment or obligation, implied or otherwise, for SNEPCO to issue a tender or enter a contract. Participation in the pre-qualification exercise does not construe or imply any commitment to any party or entitle any party to any indemnity or any form of payment from SNEPCO.

SHELL NIGERIA EXPLORATION AND PRODUCTION COMPANY LTD (SNEPCo)

INVITATION FOR PRE-QUALIFICATION TO TENDER - D01992
